Butch Lollar

To Whom it May Concern,

I have worked with Nick Siegert and his company on multiple projects over the last twenty years and have found him to be very professional and proficient in his project management.

Nick has managed all of the projects we have been on in a manner that allowed them to be completed on or ahead of schedule while maintaining an excellent relationship the various building contractors involved. All of the site coordination was handled very professionally and all of the required paperwork was responded to promptly.

We used Nick on a rather complicated project: Berry Stadium. This project consisted of over 2 million sq. ft. of paving, a basketball arena and a football stadium consisting of 400,000 sq. ft. of concrete. Nick and his crews were cognizant of our schedule and the workmanship was excellent. Hi team's responsiveness and professionalism allowed the project to remain on a tight schedule. The quality of the workmanship was apparent throughout the buildings and site.

Nick and his organization have consistently demonstrated their commitment to the success of each project by their attention to detail on all phases that include; schedules, quality control, communication, administration and document closeouts. Nick has always been extremely professional, fair, willing to work with his clients and ethical on his dealings.

I look forward to working with Nick Siegert and Arrow Construction on future construction projects.

Sincerely,

Butch Lollar,
General Superintendent
Balfour Beatty Construction
