To Whom It May Concern:

Please accept this letter as my highest recommendation of the construction firm, Arrow Construction. I have had the opportunity to work with Arrow Construction over the past five years through a variety of new construction and modernization projects, valuing their work over \$2.7 million as general contractor.

Arrow Construction has demonstrated a professional and ethical caliber during this time. The firm has built several buildings, a variety of major site work and several modernization projects. Arrow Construction has completed a grinding shop, a two-story valve shop and a building for thermal pray, an 8,000 sq. ft. building with a combination of red iron and tilt wall construction.

Utilizing quality sub-contractors has proved to be a definite strength of Arrow Construction. Schedules have been maintained and all projects have been completed on time. Safety has been regarded as top priority by all. Arrow Construction has shown their ability to collaborate as team players and have been willing to be flexible with schedules.

Understanding that it takes highly qualified personnel to maintain good relationships, Arrow Construction has provided exceptional staff that stay involved and accessible throughout a project.

Arrow Construction is truly a firm that Watson Grinding & Manufacturing will want to continue to work with in the future.

If you need further information, please call.

Sincerely,

A handwritten signature in blue ink that reads 'John Watson'.

John Watson
